

Policy: Air Emission Compliance

Responsible for Policy: Environmental Health & Safety

Governance Body Oversight: College Council

Date of Last Review: January 2022

Policy Number: E-1

Most recent approval date: April 2022

Policy Statement

The New York Environmental Conservation Law (ECL) and implementing regulations require that certain sources of emissions of air contaminants obtain a permit from the New York State Department of Environmental Conservation (DEC). In addition, certain federal regulations impose additional requirements on sources of air contaminant emissions. Finger Lakes Community College strives to ensure compliance with all applicable environmental, health and safety laws and regulations, including those related to air emissions.

Reason for Policy

Finger Lakes Community College is required to comply with applicable air permit program requirements under
